### PRODUCT FEATURES

#### HARSH HAND-HELD CONTROLLER

Introducing the HARSH remote controller for Skip loader units.

Features Include -

- **EMERGENCY STOP** - Ensures operator safety with a dedicated emergency stop function.
- **HIGH VISIBILITY** - Control your work lamps directly from the controller for enhanced visibility.
- **MULTI FUNCTIONALITY** - Controls various functions if selected (e.g. Start/Stop, Hoist Cylinder, Sliding Arms, Jack Legs, Tipping Hook, Halter Run Function)
- **AUDIBLE WARNING** - Activation and deactivation of audible warning from the controller (CLOCS use).
- **LED VISUAL WARNING DISPLAY** - Bright LED display for instant system statuses, mirrored across the hand-held controller, cab control display, and external controls for complete visibility.
- **BATTERY LIFE** - Powered by a rechargeable battery for convenience and reliability.

Key Benefits –

- **ERGONOMIC DESIGN** - Comfortable to hold and use for extended periods. Intuitive layout for quick and easy access to controls.
- **WIRELESS 360° OPERATION** - Flexibility to operate from anywhere outside the vehicle cab, providing the operator with a broad rear-angle view of the truck and container.
- **SEAMLESS MOBILITY AND PORTABILITY** – Designed for driver convenience with flexible cradle or handheld options, ensuring ease of use for both left and right-handed users.
- **OPERATOR SAFETY**- Enables clear and precise operation from a safe distance, minimizing the risk of injury.
- **SPEED AND EFFICIENCY** - This system enables quick and seamless skip offloading, optimizing job site productivity.
- **VERSATILITY** - Suitable for a variety of industries, including waste management, construction, and recycling.
